Occupational
Therapists

Learning Outcomes - 1

When you have completed this course you will be able to:

1. Understand the links between good quality employment and good health, and apply your understanding to support service users into paid work.

Learning Outcomes - 2

2. Appropriately and sensitively ask people about their employment aspirations, so that you can signpost them on for further support to meet their employment needs.

Learning Outcomes - 3

3. Evaluate your current and future practice in relation to work as a health outcome, to improve the quality of your practice and service delivery.

Activity 1 – Apply your Learning to Case Studies

- Join your small group
- Read the case study you have been given
- Discuss the questions about the case study with your small group, using your notes and learning from the individual activities
- Come to a consensus with your small group about the actions you would take with your Case Study

Activity 2 – Expand on the Case Studies

Activity 3 – Start to think about your own practice

- Re-join your small group
- Discuss together how you will support people with work within your own practices
- Discuss together the actions you will take to support people with work within your own practices

Course summary and next steps

Course summary: learning review

Now:

- Capture your immediate learning points on page 9 of the workbook

Later:

- Send your feedback on the course to RCOT (page 8 of your workbook)
- Complete your certificate on page 13 of the workbook
- In a few days' time, return to page 9 of the workbook and:
 - record areas for change in current practice

AND

- identify further learning activities that you can do
